

## DC 400

### PVC Digital Profile Measuring Table

The DC400 digital conveyor is appended to the right side of the cutting machines to provide an easier cutting process. Simply entering the length to the touchscreen the measurement block will move to the requested position. After entering a cutting list one time the cutting procedure will automatically go to next step after each cut is made.

- 0,1mm measurement accuracy
- Touchscreen
- After each cut is done, the measuring block moves back one step so the profile can be easily taken
- Practical design for efficient use

Available Lengths:

- 3.650mm ( Max piece cutting legth 3200mm )
- 4.650mm ( Max piece cutting legth 4200mm )
- 5.650mm ( Max piece cutting legth 5200mm )
- 6.650mm ( Max piece cutting legth 6200mm )

### Technical Specifications

- Power Supply : 220 V, 1 ph, 50-60 Hz
- Machine Height : 1000 mm
- Machine Length : 4700 mm
- Machine Width : 500 mm
- Machine Weight : 210 kg
- Minimum Profile Working Length : 5 mm
