

OMRM 117

Copy Router with Triple Drilling for PVC Profiles

Designed for copy milling and triple drilling of aluminium and PVC profiles.

- Two independent routing units, one horizontal and one vertical
- Horizontal unit, three holes with fixed spacing can be drilled
- Vertical unit can be used for the copy routing with the copying template
- Movement on recirculating ball bearings, ensure great stability and precision to the head unit, making it possible to work on every kind of aluminium and PVC profiles
- Smooth movement of units is carried out with shock-absorbers
- Scale of copy-milling operation 1:1
- Horizontal pneumatic clamping kit
- Adjustable operation depth
- 4-position rotating star-type depth adjustment device for copy-milling
- Side length stop

Option:

-Cooling system for aluminium profile processing

Technical Specifications

-Power Supply : 380-400 V, 3 ph, 50-60 Hz

-Total Electricity Values : 1,8 Kw, 3,8A

-Motor KW : 1,1 Kw

-Air Consumption : 2,2 lt/min

-Air pressure : 6-8 Bar

-Machine Height : 1450 mm

-Machine Length : 1000 mm

-Machine Width : 780 mm

-Machine Weight : 110 Kg

-Maximum Machinable Profile Height : 110 mm

-Minimum Machinable Profile Height : 40 mm

-Maximum Machinable Profile Width : 150 mm
